# IoT Kits/Cloud IoT Starter Kit

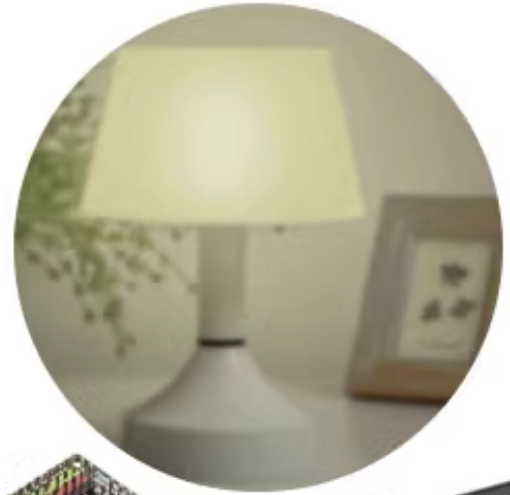

## Package delivery list

- **Digital Piranha Red LED Light Module -10**
- **Speaker module with power amplifier -10**
- **Large digital button-yellow -10**
- **Relay Module -10**
- **Soil moisture sensor -10**
- **Infrared pyroelectric module -10**
- **DHT11 temperature and humidity sensor -10**
- **Electromagnetic lock -10**
- **Analog sensor cable -10**
- **Digital sensor cable -60**

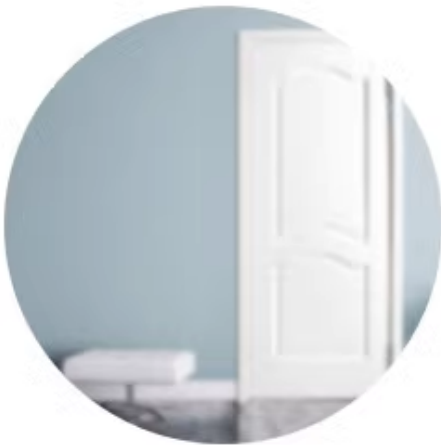

Note: It is recommended to control the energization time of the solenoid lock in use to control the unlocking at 0-5 seconds, too long energization time will damage the solenoid valve.

For the room  
humidity and  
temperature  
measurement

+

Electronic keyless  
door locks where  
access only needs  
to be controlled

+

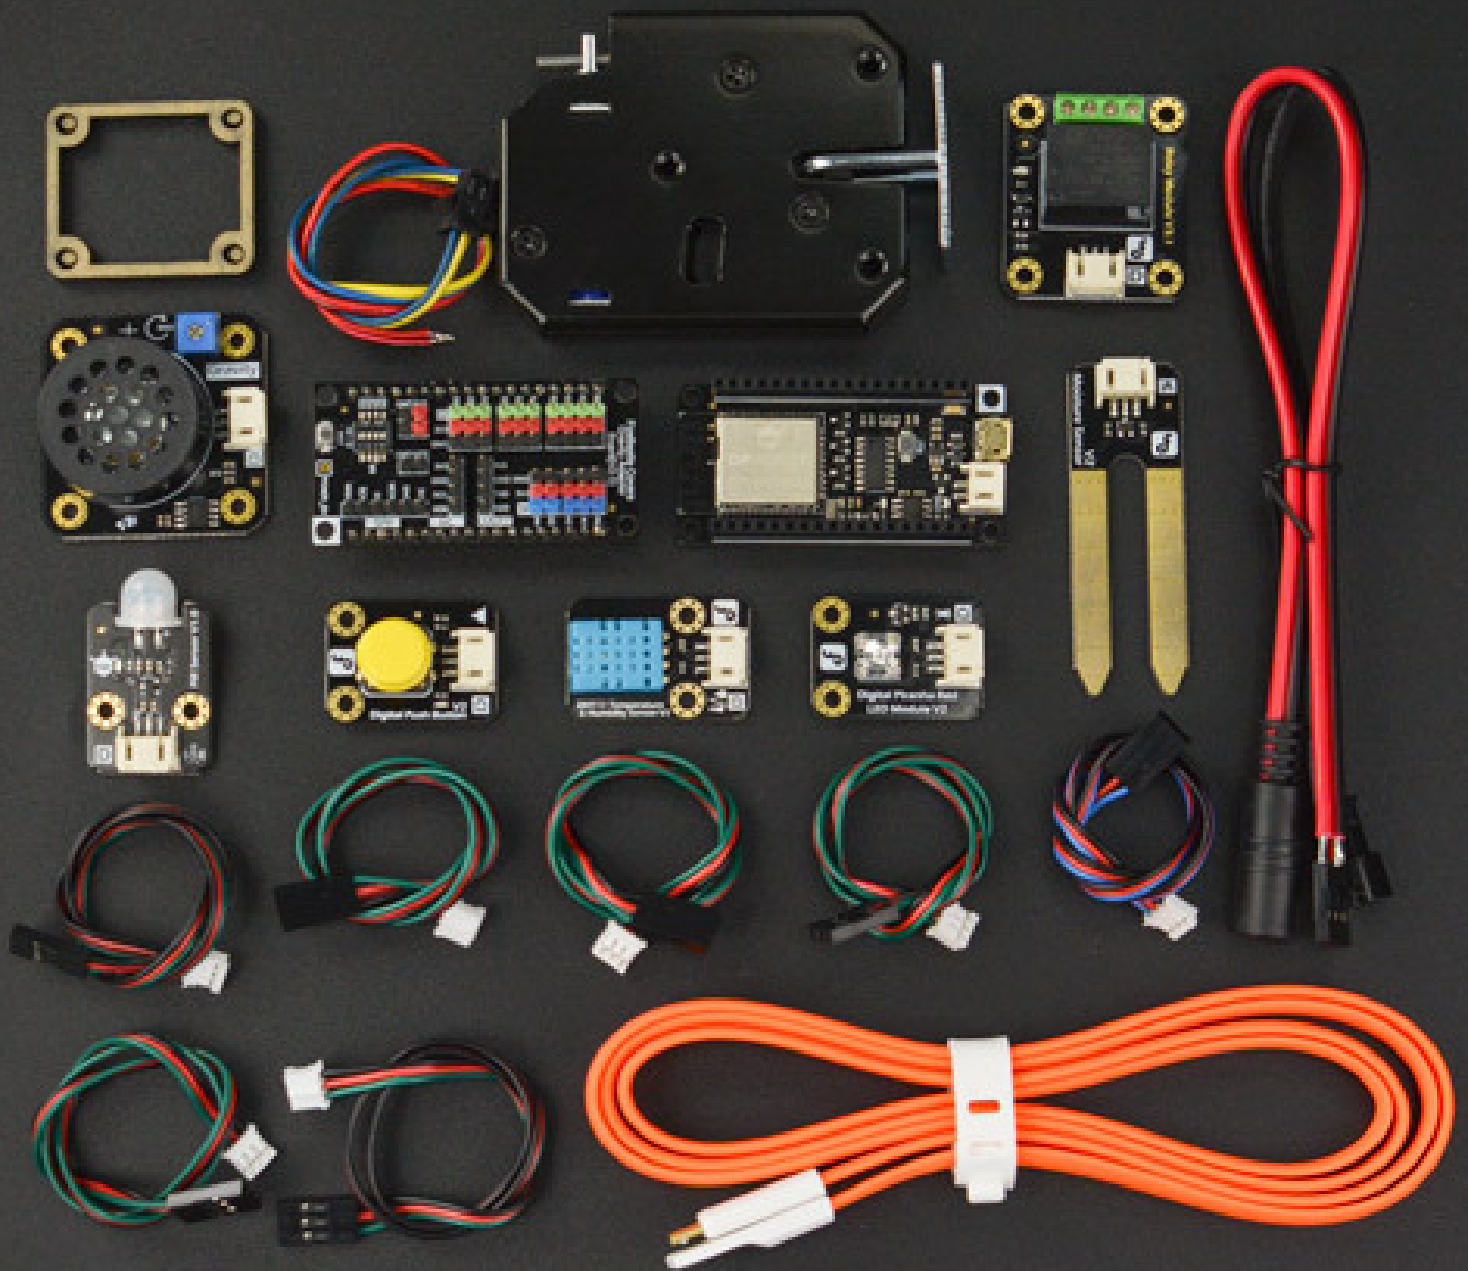

+

To control a circuit  
by a separate low-  
power signal, or  
where several  
circuits must be  
controlled by one  
signal.

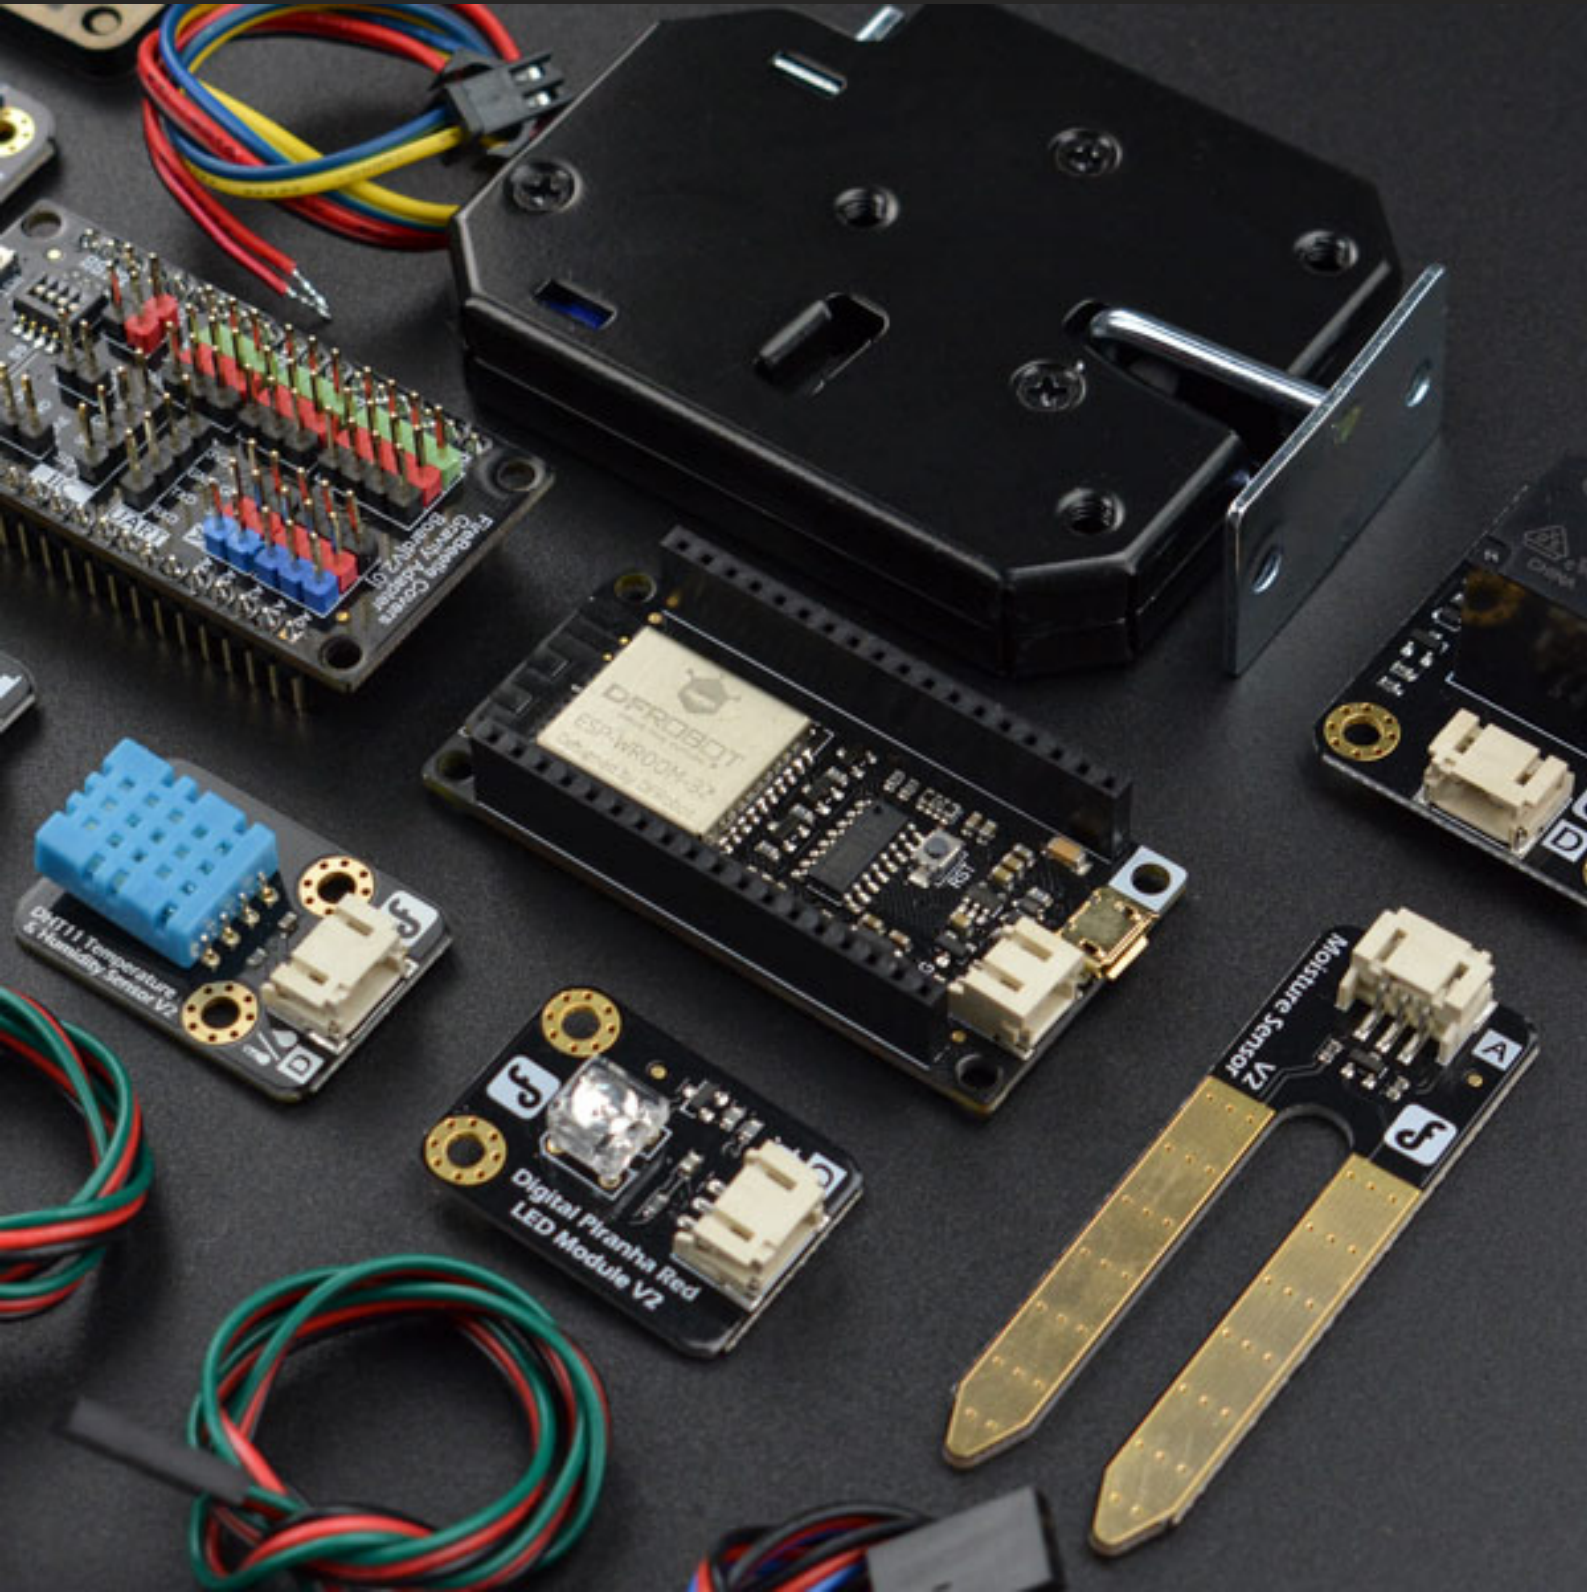

+

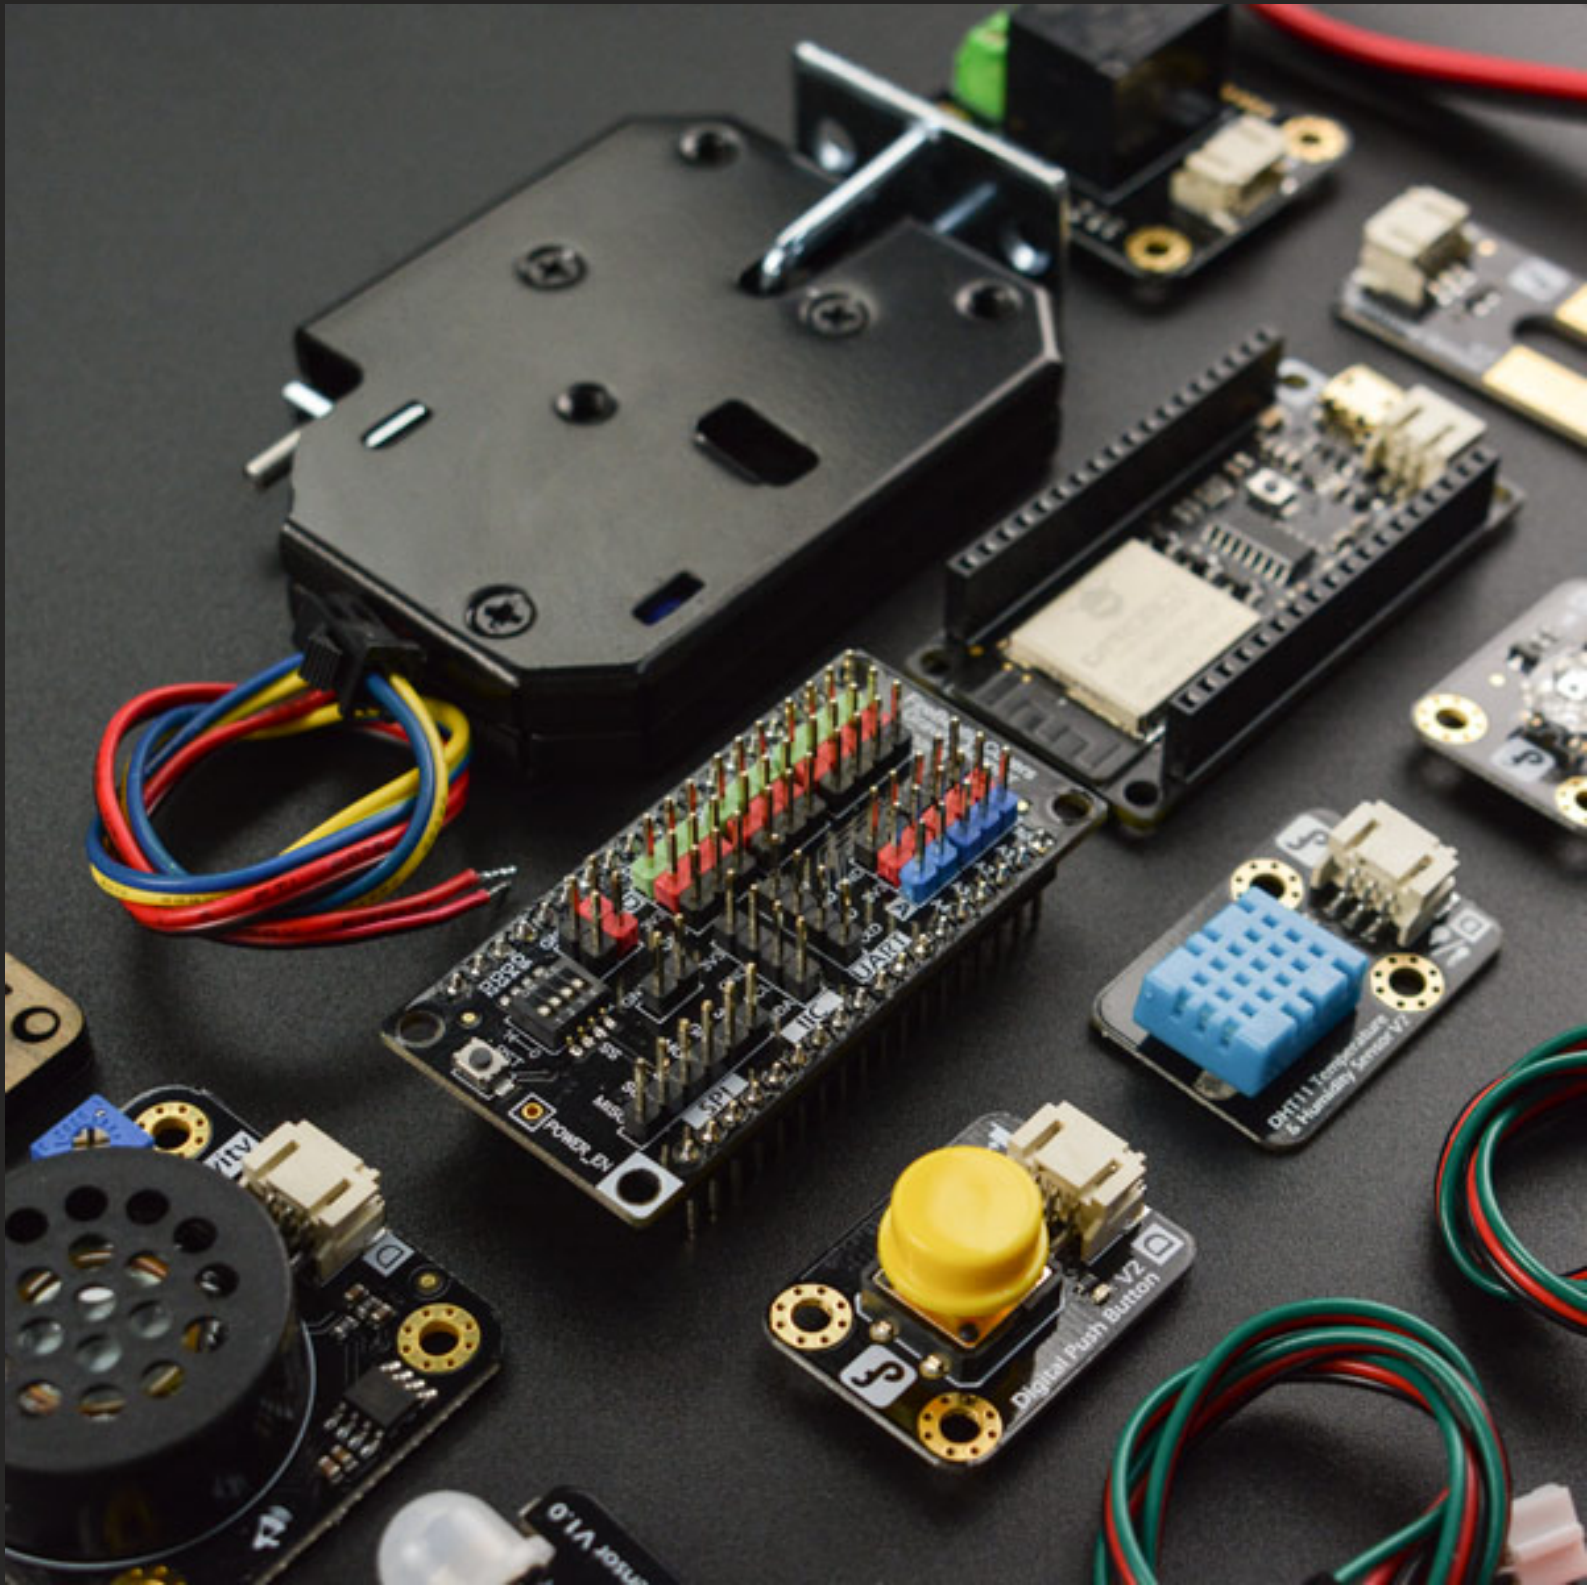

- small size and light: Small size, easy to carry and store, convenient to use with good performance.
- high quality fabrics: Made of high quality material, it is durable and reliable.

- superior performance: Stable and reliable performance, with good performance, high reliability.

- widely applications: Widely applications, can be used as a good replacement of old or damaged drive antenna.
