

Green Power is the Leading Electronic Instruments company based in Singapore. We never stop improving products' quality and extending our activities to more electronic products. Our QC system provides quality assurance based on your requirements for all of our products. We guarantee prompt delivery and a profitable business for you. Green Power should be your most economical choice. GreenPower

AC Variable Power Supply System

Model: ACVR1PH1K

Variable single Phase AC output source with extra Safety protection system

Feature:

- Voltage and Current out display (Digital and Analogue)
- Can be continuously single phase output voltage and current.
- Over current protection
- Input Voltage up to 220/240V
- Output Voltage 0 to 260V
- For safety RCCB protection.

Noted
Transformer + safety Panel
