

## Capacitance Decade Box

Capacitance Resolution 100pF, Absolute Maximum Capacitance Measurement 11.1111 $\mu$ F

Brand: Roborealm

Model: CDB5

Country of Origin: UK

### Product Details

#### Roborealm Decade Capacitance Box

The Roborealm Decade capacitance box can be adjustable via a rotary control.

This box uses polystyrene and polypropylene capacitors offering high-accuracy, a low-temperature coefficient (125ppm/°c) and high-insulation resistance.

This is robust, easy to install and has robust switches with metal frame and gold-plated contact.

### Features and Benefits

- Five decades are 100pF, 1nF, 10nF, 100nF, 1 $\mu$ F and 11 $\mu$ F
- Outputs on each decade via 4mm safety sockets
- Discharge pushbutton
- Capacitance resolution is 100pF
- Maximum voltage rating is 300VDC or 230VAC 50Hz until 1000Hz
