

Welding Machine 400a Inverter Welder

MODEL	TIG -315P ACDC
Input Voltage	3PH AC380V±15%
Input Power	9 KVA
Input Current	13.6 A
Rated Output	5-315A
No-load Voltage	74 V
Rated Duty Cycle 40°C 10min	315A 60%
	244A 100%
Efficiency	80 %
Protection Grade	IP21
Insulation Grade	F
Net Weight	47.2 KG

Product Description

port: TIG , MMA, Pulse TIG and TIG-AC/DC

HF TIG arc starting

Function: 2T/4T, gas pre-flow, gas delay, slowup, slowdown and anti-stick

Protection: over-heat and over current.

Material: Aluminum, Stainless steel, Carbon steel and so on
